Report
Project-Paper Presentation competition
For B.Sc. & III
(Call project on email approximately 70% student participated)

In Sant Gadge Baba Amravati University Amravati new syllabus of BSC included the project in the Physics. Now it was a compulsory to the all the students to do the project on 3rd semester onward. The project was given the idea about the student regarding to the understanding of the Physics. Department of Physics allotted the project to the student in the starting of the semester. The topic was belonging to their syllabus. The format of the project had given to the student like paper presentation which contain abstract, introduction, literature survey, experiment technique etc. So students simultaneously did their study and also write a project on one of the topic of the syllabus in a research paper format. To make more interesting and advance, department introducing the step to collected the project in a soft copy through email of the respected teacher. Department had known the students got difficult to send the email because most of the no email ID and they were not used to how to send the email. Now in a modernization email ID was necessary for online applications, downloading forms and most of the cases it was a mandatory. Department decided to collect the project and created the habit to the students to write and read the email. Department decided all the Student of the BSc must send the project on email ID of the teacher. In this step about 70% of the students send their project on mail. In the modernization and the globalization of the world there was great opportunity in research field. Our students were under-graduate but definitely they will do post-graduation in one of the subject of the science. In science there was a great scope of research. So students must know contain and heading of research paper.

For appreciation of this, department publish a book of articles of the students. Edited book were to be published first step toward a research and how to write research articles in which B.Sc. final year student articles were published.

Our students had made lot of the mistake in project, but it was kindly appreciated because in a under graduation level they were thinking like a research scholar. This work was appreciated by the head of the department Dr. D. S. Thakre sir. Every activity got the success when students were participated actively. Department teachers had taken effort to support and clear the idea regarding to the project of students. This initial step of the students must be very appreciable.
